

# Cloud capabilities

—  
Building a business value-driven and resilient cloud platform that works for you.

CLOUD COMPUTING  
ACCELERATES ENTERPRISE WIDE  
DIGITAL TRANSFORMATION  
TO REDUCE **OPERATING EXPENSES**  
**AND PROVIDE AGILITY**  
**FOR SHIFTING IT OPERATIONS**  
**TO THE CLOUD.**

**NIVID IS THE EXTENDED  
TECHNOLOGY TEAM  
FOR ALL YOUR  
CLOUD COMPUTING NEEDS.**

**- Sudhir Deme**  
Cloud Practice Head

Nivid's cloud services are designed to meet customers strategic and tactical goals. We utilize our proven and process driven Cloud Execution Framework (CEF), which leverages the strength and flexibility offered by various cloud platforms, to deliver end-to-end cloud strategy execution, that includes consulting, architecting, designing, migration and operations.

01

We have industry best talents and large pool of certified professionals, spanning across multiple cloud platforms, to design, build, transform and management your cloud deployments

02

Nivid has extensive experience across inudstry verticals in building and operating large cloud environments.

03

We have indepth expertise on the entire infrastructure eco system, which helps in efficient design and automation capabilities for cloud computing.

## OUR SERVICE PORTFOLIO

Every organization's cloud computing needs are unique based on their current cloud maturity and adoption level. At Nivid, we do a deep dive and perform extensive assessment to understand current state, identify gaps and cloud readiness. Based on the assessment, we design customized services with an agile approach to meet business objectives and transformation goals.
